TOOLKWIP PUMPS

Ezi-action® DRUM PUMPS

FEATURES:

› Superior quality, polypropylene and polyethylene construction, providing a very broad chemical resistance, including some mild solvents. Suits many acids, alkaline and chlorine- based products. Also for oils, diesels, most crop chemicals and liquid fertilisers.
› Revolutionary, true double action pumping principle - innovative, easy, patented pumping technology
› Minimal effort required to hand pump the ergonomically designed ball handle for fluid transfer
› Delivers on both the up and down stroke for continuous, fast flow with high volume and low pressure
› Safety strap effectively locks handle and secures contents to deter access by children and unauthorised people
› Pump reaches to the base of drum or container and empties virtually all contents
› Prevents waste with swivel spout and no leaking - extender discharge hose accessories can be attached to outlet spout
› Manufactured from FDA compliant materials - confidence with liquid food products
› 2 Year Manufacturers warranty
› Fully serviceable, providing years of reliable dispensing
› Not to be used with strong solvents, petrol (gasoline) or other flammable liquids
