

FLO-KWIP

AUTOMATIC SUBMERSIBLE VORTEX PUMP

Model: SSV-037

Features:

- › Robust, high quality, dirty water pump
- › Drainage of water containing suspended solids
- › Emptying of sumps and tanks
- › Stainless steel shaft
- › Stainless steel AISI 304 pump body
- › Stainless steel impeller
- › Mech seal, silicon carbide - NBR, plus inner lip seal in oil barrier chamber
- › Stainless steel motor support
- › Thermal overload protection
- › Robust construction, very reliable and will withstand liquid temperatures up to 50°C
- › Will withstand 90°C liquid temperatures in 3 minute intervals
- › Passage of solid bodies up to 20 mm

Specifications:

- › 6.5 metres max head
- › 180 litres per minute max flow rate
- › 0.37 kW, submersible asynchronous 240 volt motor rated for continuous duty
- › Vortex inlet system
- › 32 mm outlet
- › Weight 5.9 kg
- › 10 metre cable H07 RN-F
